

# SAVE TIME. FIGHT FOOD WASTE

## UPCYCLED LIQUID MIREPOIX

Each year roughly 33 million tons of nearly perfect vegetables never make it to your plate. That's a colossal waste of food and water and creates massive amounts of greenhouse gases. Matriark works to solve this problem by upcycling the high-quality, nutritious, US-grown carrots, celery and onions that are in this bag.

Each 20lb bag =

**20**

pounds of vegetables diverted from landfill

**2,385**

gallons of water saved

**52**

pound of greenhouse gases reduced

Matriark Foods upcycles farm surplus and fresh-cut remnants into delicious, healthy products that are better for people and our planet. We partner with farmers and businesses to build better food systems.

**The first commercial Upcycled Liquid Mirepoix for foodservice.** Made with upcycled trim from fresh celery (41%), carrots (41%), and onions (18%).

Matriark Foods Upcycled Liquid Mirepoix is a smooth puree made from lightly blanched carrots, celery, and onions. It can be used like a traditional mirepoix: add oil or butter to a pan, bring to saute temperature, then add the desired amount of liquid mirepoix, cook for about 5 minutes at low/medium heat and build your recipe from there.

We provide actual impact for every order:

**2500**

cases

**100k**

pounds of nutritious food diverted from the landfill

**12 million**

gallons of water saved

**262k**

pounds of GHG reduced
